The tables and graphs in this report are arranged in the same manner as those in similar reports for the past few years. Identification of individual instructors is by code number. Each individual will find a check mark by his code number on his copy of this report.

Figure 2 Grade Index Assigned to Students of Each Classification for Eight Consecutive Years 6

Following the grade index assigned by an individual instructor to each classification appears the amount of deviation that grade index is from the college index for students of similar classification. The college indexes appear on page 3 (2.69 for unclassified students, 2.06 for freshmen, 2.29 for sophomores, 2.44 for juniors, 2.65 for seniors, 2.30 for all undergraduates combined). The college index for graduate students is 3.12.

A Study of the Grades Assigned during the 1960-61 Academic Year by the Faculty of the State College of Iowa

This report is similar to those prepared over the past seven years (numbers 74, 77, 81, 84. 86, 89, and 92). Grades are tabulated separately for each undergraduate classification (1--freshmen, 2-sophomores, 3-juniors, 4--seniors) as well as for graduates. In this report for the first time we have included 31 grades given to "unclassified" students and the classification is given as "0". These 31 grades carried 97 hours of credit. The plan followed in research report number 92 of giving each instructor's deviation in grade point average from the college average for each classification is followed again in this study.

The total number of semester hours of credit assigned to undergraduates during the 1960-61 academic year was 94,288--an increase of 6.9%. Freshmen showed the greatest increase (22.2%) with the juniors showing an increase of 7.7%. Sophomores showed a decrease of 8.0% and seniors a loss of 0.3%. The graduates showed an increase of 8.8%. The graph on page 5 shows the relative number of hours of credit assigned for the past eight years in terms of the 1953-54 number. The number of hours of credit assigned to freshmen in 1960-61 was the highest it has been since 1956-57 and almost reached the level of that year and the year 1955-56. The number of hours assigned to juniors was the highest in 1960-61 that it was in any of the eight years. The same is true of graduate students.

Ten departments showed an increase in the number of semester hours assigned in 1960-61 and only six departments showed a decrease. Percentages are given in the table below.

	increase		increase		decrease
Social Science .	44.5%	Industrial Arts.	14.0%	Home Economics. . .	2.6%
Lang-Sp-Lit. . .	26.4%	Business Ed. . .	13.8%	Phys. Ed.-Men . . .	4.0%
Humanities . . .	20.5%	Music.	12.7%	Science.	9.7%
Mathematics. . .	16.2%	Library Science.	12.1%	Physical Education	12.3%
Art.	14.7%	Phys. Ed.-Women.	8.7%	Education	16.1%
				Teaching.	26.8%

If the Department of Science and the Department of Social Science are combined, they show an increase of 13.6%. The reason for the large gain for the Department of Social Science and the loss for the Department of Science is due to the fact that the geography courses were transferred from the Science Department to the Department of Social Science.

The grade index assigned to freshmen and to sophomores was lower than for the preceding year, those for juniors and for seniors were the same and that for graduates was lower. See the table below and the graph on page 6.

Table I is read as follows: The Department of Art assigned 611 grades to freshmen as follows: F--24, D--55, C--364, B--143, A--25 (percentage distribution is F--4, D--9, C--60, B--23, A--4). These 611 grades represented 1402 semester hours for which 3022 grade points were assigned--a grade index of 2.16).

There were 31 grades given to "unclassified" students (classification given as "0" in above table). These 31 grades carried 97 hours of credit.

There were 48,529 semester hours of credit assigned in the fall semester and 45,759 in the spring semester--a decrease of 5.7%. For freshmen the decrease was 18.7%, for sophomores there was a gain of 0.4%, for juniors there was a loss of 2.9%, and for seniors a gain of 13.1%.

In Table II on the preceding pages and in Table IV following this one, each instructor is identified only by code number and is listed in the department in which he does most of his teaching or in the one in which his name appears in the college bulletin. Some courses in physical education and in band and orchestra do not give hours of credit. The number of such grades is given even though no hours of credit are allowed.

Table IV gives for graduate students the numerical distribution of grades for the 1960-61 academic year (two semesters combined), the number of semester hours assigned each semester, the total hours, the grade index and the deviation of each instructor's index from the college average for graduate students. The data are arranged according to department just as they are in Table II.
